DESCRIPTION OF CONTRACTOR OBSERVATION BY: On May 23, 1988, TAT responded to a major fire at the Builders Hardware Finishers, Inc. metal plating facility in Los Angeles, CA. TAT was immediately involved with site stabilization including level B inspection entries providing information allowing local officials to lift the evacuation of 11,000 nearby residents. Under extreme hazardous conditions, TAT effectively sampled, identified, categorized and provided specific handling instructions for all waste streams. TAT's knowledge of CERCLA approved treatment and disposal alternatives, local laboratory services and recent RCRA Land Ban restrictions proved vital to ERCS. A comprehensive removal action report has been submitted.
